Can you correct the wrong words?

How many streets must a man walk down before you call him a man?

How many oceans must a white dove sail before she sleeps in the sand?

Yes, and how many times must the bombs fly before they're forever banned?

The answer, my friend, is blowing in the wind

The answer is blowing in the wind

Yes, and how many years should a mountain exist before it is washed to the sea?

And how many years could some people exist before they're allowed to be free?

Yes, and how often can a man turn his head and pretend that he just doesn't see?

The answer, my friend, is blowing in the wind

The answer is blowing in the wind

Yes, and how many times must a man look up before he can see the sun?

And how many ears must one man have before he can hear children cry?

Yes, and how many deaths must it take 'til he knows that too many people have died?

The answer, my friend, is blowing in the wind

The answer is blowing in the wind
